Dear friends and family,

We wanted to give you a small update and share the news that we got yesterday.

Our friends, Luis and Yanaisy who returned to Cuba with 9 pairs of glasses and 4 pairs of readers reported that each package was sent off with different people to the provinces where each person was expectantly waiting. Everyone now is in possession of their glasses!

It was an incredible blessing to be able to send them over but there are two stories that are particularly dear and we couldn't NOT share with you!

Amanda is a sweet little girl that we met in 2018. Her lenses are +11 and she can't get them there in Cuba. In 2019 we took her the first pair and then now, we sent her her second! The doctor told her mama that because of the glasses we had taken her before, her eyes had not gotten any worse. Praise God!

Let us introduce you to Amanda and her beautiful new pink glasses!

Meet Jason! He has ocular albinism (albino retinas) and cannot go into the sun like other children to play without extreme discomfort. He doesn't need corrective lenses but they wondered if we could possibly get lenses that are auto darkening.

In Ensenada, when I explained the situation to the eye doctor, we went out into the street into the sunlight with all the different shades to pick the very best ones for his condition!

He is so happy to be able to play with his friends!

God is so sweet in His care for these little ones.

Thank you for being a part of this gift!

Pablo & Martha
